Sardine	Octopus	Tuna	Salmon

The idea of this program is to help your child progress their swimming ability as technique and skill is reinforced on a daily basis over the course of 5 days.

This swimming lesson program also gives them that little push along if they are struggling in their weekly swimming classes. The program is a 5 day course where the child has a lesson each day. The reinforcement from one day to the next can make such a difference. Not only that but you will find your child progresses easily and is likely to go up in program levels. This is great for self esteem.

**5 days for \$65!**

**Bookings for all our Holiday Programs are essential. Full payment must be made at the time of booking.**
